ABOUT ME

Experienced MERN stack developer with a proven track record of building scalable web applications using MongoDB, ExpressJS, ReactJS, and NodeJS. Skilled in developing RESTful APIs, optimizing front-end performance, and implementing security measures. Collaborates effectively in Agile environments, provides solutions to complex technical challenges, and possesses strong communication and interpersonal skills.

EXPERIENCE

Full Stack Developer (MERN)   Dec 2022 To Apr 20223
TOGGLE BYTES, MUMBAI

- Developed multiple web applications using the MERN stack, VueJS, NextJS, and Mysql
- Worked on both front-end and back-end development, including building responsive user interfaces and creating and integrating APIs
- Collaborated with cross-functional teams, including designers and project managers, to deliver projects on time and to specification
- Utilized version control systems such as Git to manage codebase and maintain consistency across projects
- Conducted testing and debugging to ensure high-quality and error-free code
- Demonstrated adaptability by quickly learning new technologies and taking on tasks outside of core responsibilities.

PROJECTS

CLONE OF TRACKINGTIME.COM 🔗 🌐

A collaborative project built by a team of 5 executed in 4 days.
